Charging Meter
1. Remove the USB cap to reveal the USB connector.

The Contour NEXT Link 2.4 meter has a permanent rechargeable battery.

Charge your meter with the wall charger* or by plugging the USB connector into a computer. Be sure the computer is turned on.

Your meter will briefly display “Do Not Test–Charging” and the test strip port light will flash. You cannot do a blood glucose test while the battery is charging.

When charging is finished, the test strip port light will turn off. Unplug your Contour NEXT Link 2.4 meter to test.

Unplug Meter From Charging Source Before Beginning Setup
2. To begin setup, hold down the top Menu button for several seconds until the meter turns on.

3. Scroll down to select your language. Press #.

4. Press # if the correct language is displayed. Press # if the incorrect language is displayed.

Connect to Pump
5. Can I use a Medtronic Pump? Press #.
6. For the MiniMed 630G
5a. Press any button to turn the screen on.
7. Press the Menu button for several seconds. If your pump does not have a Menu button, go to step 7b.
8. OR
8b. Press the Select button.
9. For the MiniMed 670G
7a. Press the Select button.
10. Use the Down arrow button to scroll to Options. Press Select button.

If pump screen goes blank, press any button or turn the back on.

11. Read the pump screen, using the down arrow to scroll to the next page.

12. Place the meter and pump next to each other. Select Search on the pump. Select Search on the meter.

The search may take up to 2 minutes.

13. Check to see if Device SN (serial number) on the pump matches the Device SN on the meter. If they match, scroll to Confirm on the pump. Press the Select button.

When the pump links to the meter, the SN on the meter screen will change to a different serial number. This number is the pump SN.

14. Turn the pump over. Make sure that the SN on the back of the pump matches the pump serial number now on the meter screen. Press Next.

15. Select Always and press # on next screen.

16. Select the Rate Format.

17. Press #. Note: If time and date are incorrect, you must change them on the pump.

18. Press Receipt to select Reading is N/A. AutoLog allows you to mark a fast result as Fast, Before Meal, or After Meal. See your user guide to learn more.

19. Turn the page over to complete setup.

*Wall charger may not be included in all meter kits. Contact Customer Service for information on obtaining a wall charger.

Initial Setup of Contour®NEXT Link 2.4 Meter and Connection to MiniMed™ Insulin Pump
Obtain Blood Drop
1. Insert the test strip and wait for the NEXT BLOOD message.
2. Remove the lancet device endcap. Insert the lancet firmly into the lancet device until it comes to a full stop.
3. Replace the endcap. Rotate the endcap dial to adjust the puncture depth.
4. Obtain your blood drop.

Testing Blood Drop
5. Touch the tip of the test strip to the drop of blood. If the first blood drop is not enough, the meter will beep twice and display STRIP UNDERFILLED. You have about 30 seconds to apply more blood to the same strip.

NOTE: If AutoLog is ON, you are asked to mark your instructions on preparing the lancing device.
Refer to your lancing device insert for detailed purposes only. Your lancing device may look different. The lancing device graphics are for illustration due to the risk of infection.

Testing Your Blood

Materials for Testing
Lancing Device
CONTOUR®NEXT Test Strip
Lancet

CAUTION: Always check the display on your pump to ensure that the glucose result shown agrees with the glucose result shown on the meter.

Sending Results to Your MiniMed Pump
6. If Always was selected in Send Options during Setup, results will be sent directly to your pump. If Not Me was selected in Send Options during Setup, you can choose to send your result to your pump after each blood sugar test.

Bolus, Reminder and Notes
7. Select Bolus to send a bolus to your pump. Select Reminder to set a reminder for your next test. Select Notes to add more information to the result.

Confirm That Result Was Sent to Pump
8. Pick up your pump. Press and hold the Back button in the MiniMed pump to display the blood sugar result shown on the meter.

Turn Meter Off
9. Remove the test strip and the meter will turn off in 3 minutes. Or hold down the Menu button to turn off the meter.
